LEUCHTIE®

handcrafted in Germany

The original with
sensor technology

LEUCHTIE - handcrafted in Germany

Our aim: Safety for dogs and humans.

Already since 2003 we have been crafting LEUCHTIES in our small manufactory in Weiden, Bavaria, completely by hand.

We have always aimed the greatest safety possible for both dogs and humans. To ensure this objective we make them clearly visible in the dark on all sides and over large distances.

This makes LEUCHTIE stand for highest-quality LED collars ensuring the maximum functionality.

Ever since 2003 we continue to develop and refine LEUCHTIE with our own dogs and in cooperation with rescue dog units – obviously in practice, not desk-based.

Trust LEUCHTIE for the safety of your dog - reliable and proven hundreds of thousands of times since 2003.

Advantages at a glance

LEUCHTIE is an extremely bright and durable LED light collar for dogs with patented sensor technology.

- easy handling
- 100 % waterproof
- extreme brightness from all sides

www.leuchtie.com/configurator
- incl. attachment loop for the collar or harness
- handcrafted in Germany

*depending on the LEUCHTIE model

Sustainability and responsibility

LEUCHTIE is *not* a disposable item. With our repair service and low-cost spare parts we help you reliably at any time.

Social responsibility

A part of the preparatory tasks is carried out in curative educational centres.

We avoid the exploitation of people and the environment that is typical of production in low-wage countries as far as possible and act consistently:

We manufacture our LEUCHTIES in Germany and attach great importance to quality when selecting our materials and suppliers.

Also available:

Striking colour combinations

Senior Edition for older, visually handicapped and insecure dogs

Spare parts and accessories for easy replacement or retrofitting

Your desired LEUCHTIE

We are happy to manufacture your LEUCHTIE according to your personal wishes:
